An Important Financial Services Message from our Managing Director

We understand how our clients might be feeling at the moment. In these times, as we have seen before in other global events and subsequent volatility, it is most important to hold on to a long-term view rather than trying to handle the short term losses that can occur.

1. Get advice
2. Make an investment plan and stick to it
3. Invest as soon as possible
4. Don't just invest in cash
5. Diversify your investments
6. Invest for the long term
7. Stay invested

Remember: Investing with a long-term outlook and long-term goals is the best way to reduce the impact of stock market fluctuations and to see out periods of volatility.

Please do contact us if you have any concerns that you wish to discuss. You can call us on 01530 267 150, email us at advice@ashwoodlaw.co.uk or phone your adviser directly.

Please see our website www.ashwoodlawwealth.co.uk for important financial information.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Robert Lawson", with a stylized flourish at the end.

Robert Lawson
Managing Director

THE VALUE OF PENSIONS AND INVESTMENTS CAN FALL AS WELL AS RISE
AND YOU CAN GET BACK LESS THAN YOU INVESTED
